PHASE OUT ITEM

Art. 32081
LED work lamp T2500

SMD 2500 lumen 1000 lux (1 m) | 64 SMD | 24 W 100-240 V 50/60 Hz | Temp Color 6000 K | 110° | IP54

LED work light T2500
Robust and impact proof plastic housing with edge protection

24 Watt
64 SMD LED
Energy class A++
930 Lux (1 m)
2500 Lumen
6000 Kelvin
IP54
3 m cable
230 VAC supply voltage

Art. 32081C

LED work lamp T2500 + tripod

NEW ITEM

Art. 702.006.500
LED work lamp 5000, replaceable battery, 5 color temp.

SMD 5000 lumen | 5 Colour Light | 50 W SMD 2/4/6/18 h | IP65 | IK10 | 110° | 4.0 h

The Kraftwerk 5000 LED Work Light – Professional Illumination for the Toughest Conditions

Rely on the Kraftwerk LED 5000 when precision and durability are required. This high-performance LED work light sets new standards in efficiency and longevity

- Output: 5000 lumens of light, powered by high-quality SMD LEDs with a lifespan of 100,000 hours.

- Battery: Features a powerful Li-ion battery (14.8V, 5200mAh). Depending on the required light intensity, the operating time can be optimally controlled: 18h / 6h / 4h / 2h.

- Light Color: Five selectable color modes (2700K, 3500K, 4500K, 5500K, 6500K).

- Durability: Impact-resistant plastic housing with an IK10 impact rating and IP65 protection class (dustproof and protected against water jets). Can be used in temperatures from -10°C to +40°C.

- Flexibility: Can be operated with interchangeable adapters and batteries from Bosch (AMP), Makita, Metabo (CAS) and Milwaukee.
- Additional Functions: Can be mounted on a tripod (up to 1880 mm height).

Accessories for work lamp 702.006.500

Art. 702.798.004

Battery adapter AMPShare-(Bosch) work lamp 702.006.500

Art. 702.798.005

Battery adapter MAKITA for work lamp 702.006.500

Art. 702.798.006

Battery adapter CAS-(Metabo) for work lamp 702.006.500

Optimization to the phase-out LED work light 32081

Luminosity & Versatility:

With 5000 lumens, this lamp offers twice the brightness for professionally illuminating large areas. Thanks to five selectable color temperatures (from warm to daylight white), you can perfectly adjust the light to any situation, whether for precision work or general lighting.

Cordless Freedom:

Work anywhere without being dependent on an outlet. The Kraftwerk 5000 not only runs on its own Li-ion battery but is also compatible with batteries from Bosch, Makita, Metabo and Milwaukee thanks to special adapters

Extreme Protection:

Don't take any risks. With its IP65 certification, the lamp is completely dustproof and protected against water jets. The IK10 impact protection also makes it resistant to mechanical impacts on the construction site or in the workshop.

Replacement Parts:

All components of the 702.006.500 work light are also available individually as spare parts:

- 702.798.000 Li-ion Battery 14.8V 5200mAh, for work light
- 702.798.001 Battery Adapter KRAFTWERK for work light
- 702.798.002 Charging Cable 20.0V 1.1A for work light
- 702.798.003 Telescopic Tripod for work light
- 702.798.004 Battery adapter AMPShare-(Bosch) work lamp
- 702.798.005 Battery adapter MAKITA for work lamp
- 702.798.006 Battery adapter CAS-(Metabo) for work lamp
- 702.798.007 Battery adapter Milwaukee for work lamp
