NEW Smart Battery Charger 15.0A

Art. 506.200.015
Professional Smart Battery Charger 12/24V 15.0A

The Ultimate Charging Station for Professionals

When maximum performance is required, there is no way around this one. TAs the most powerful model in our Smart Battery Charger series, this intelligent charger is specially designed for heavy-duty tasks in workshops, vehicle fleets, and industrial sectors. It combines enormous power with intelligent technology for maximum efficiency.

Extreme Charging Performance:
With a massive 15.0A at 12V (or 7.5A at 24V), this model charges even the largest batteries in record time.

Intelligent Automation: Thanks to automatic voltage selection, the device independently detects whether a 12V or 24V system is connected.

Maximum Capacity:
Designed for batteries from 25Ah up to an impressive 450Ah (at 12V) – ideal for trucks, buses, large agricultural machinery, and ships.

Exclusive Boost Program:
The integrated 12V Boost mode helps recover deeply discharged batteries.

Professional Supply Mode:
With the Supply Mode, the device acts as an external power source to support on-board electronics during maintenance or battery changes.

Lithium & Lead-Acid:
Fully compatible with conventional lead-acid batteries and modern Lithium batteries (LiFePO4) in both voltage ranges.

Full Equipment: Comes with robust Smart Clamps and eyelet connectors for a secure and professional connection.

This model is more than just a charger; it is a professional charging station. While other models are designed for maintenance or standard vehicles, this unit offers 320W of power and a unique Boost program to handle heavy-duty fleets. It provides the necessary reserves for the most demanding professional tasks.

Specifications:

- Output Current (Amperage): 15.0 A
- Output Voltage: 12 - 24 V
- Min / Max Battery Capacity: 25 Ah ~ 450 Ah
- Input Voltage: 220-240 VAC, 50/60 Hz
- Power Consumption: 320 W
- Compatible Battery Types: 12V Lead-Acid Battery 50Ah ~ 450Ah; 12V LiFePo4 Battery: 50Ah ~ 450Ah; 24V Lead-Acid Battery: 25Ah ~ 230Ah; 24V LiFePo4 Battery: 25Ah ~ 230Ah
- Operating Temperature: 0° ~ +40° C
- Internal Fuse: 10A
- IP Rating (Protection Class): IX 65
- Cable Length: 185 cm
