New LED work lamp 5000 including tripod

Art. 702.006.501
LED work lamp 5000 including tripod 1880 mm, replaceable battery, 5 color temperatur

The Kraftwerk 5000 LED Work Light including tripod with an extension height of 1880 mm – For Professional Illumination Under the Harshest Conditions

Rely on the Kraftwerk LED 5000 when precision and robustness are paramount. This high-performance LED work light sets new standards in efficiency and durability.
With a maximum extension height of 1880 mm, the tripod allows for precise positioning and illumination even at greater heights or in hard-to-reach places.

Equipped with high-quality SMD LEDs, the Kraftwerk 5000 offers an impressive light output of 5000 lumens. The powerful 14.8V 5200mAh Li-ion battery ensures maximum endurance on the job. Depending on the required light intensity, the operating time can be optimally controlled: 18h / 6h / 4h / 2h.

This lamp is extremely flexible, as its operating voltage range is 12 V to 24 V. The extremely long LED lifespan of 100,000 hours guarantees that you can rely on reliable illumination for years to come. Thanks to the glare-free and special light diffusion, a large and uniform work area is illuminated.

Adjust the light color flexibly to your requirements. Choose from five different color modes: 2700K (warm white), 3500K, 4500K (neutral white), 5500K, and 6500K (daylight white).

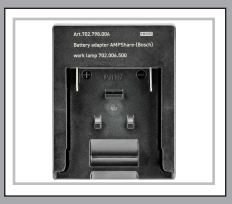

The Kraftwerk LED 5000 is designed for tough use. Its impact-resistant plastic housing and IK10 shock resistance reliably protect the light from mechanical impacts. With IP protection class 65, it is also completely dustproof and protected against jet water – ideal for use in demanding environments. Even extreme temperatures from -10°C to +40°C cannot harm this work light.

The Kraftwerk LED 5000 offers the unique possibility to operate it with interchangeable adapters and batteries from Bosch (AMP), Makita, Metabo (CAS) and Milwaukee. This significantly increases your flexibility and allows you to optimally utilize your existing battery systems. See accessory items.

Scope of delivery:
LED work lamp 5000
Li-Ion battery 14.8V 5200mAh, Art. 702.798.000
Adapter for battery, Art. 702.798.001
Charging cable 20.0V 1.1A, Art. 702.798.002
Telescopic tripod, 702.798.003

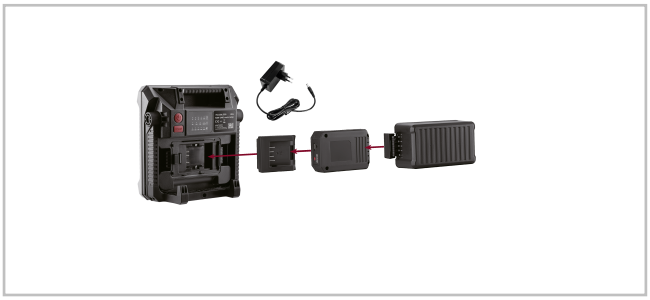

Accessories:
Battery adapter AMPShare (Bosch), 702.798.004
Battery adapter Makita, 702.798.005
Battery adapter CAS (Metabo), 702.798.006
Battery adapter Milwaukee, 702.798.007

Art. 702.006.500

Work lamp is also available without a tripod
